

What the Owners Say...

CENTRAL OTAGO ORCHARD OWNER JOHN TAYLOR SAYS HIS BERTI TFB/Y MULCHER IS "GOOD AS GOLD."

"It gives us the versatility of cutting grass, sticks and pruning's in the orchard and putting everything back into the ground.

The hydraulic movement on the arm is a lot better system than the previous one that just sat at one direction."

"Ours isn't an easy property because we're up and down."

"It was robust enough to stand up to that treatment where the older mower we had weren't."

"IT'S BEEN A VERY RELIABLE MACHINE, VERY GOOD."

It's convenient after pruning for tidying up the orchard, and it's more convenient than getting a contractor.

They're good reliable heavy duty machines."
